VIRTUALCC SEEKS VOLUNTEERS FOR PILOT PROGRAM TO TEST MODEL

As part of its business planning, VirtualCC will soon begin a short pilot program to test its model and is seeking volunteers to assist with the pilot.

Virtual Contact Centre Limited (VirtualCC) is a Not For Profit Company Limited By Guarantee.

A Deductible Gift Recipient (DGR), VirtualCC aims to employ regional Victorians, beginning with those unemployed aged 50 and over who are on JobSeeker, to provide outsourced support functions to businesses and Government.

Paul Mizzi, CEO and Founder, stated that “ We are looking for a few unpaid volunteers who can take part in a pilot project to see if we can find and employ people who are 50+ on JobSeeker and in regional Victoria.”

The work involves being trained and then providing support in a Work From Home environment. Best fit volunteers are those who have a good internet service, a good personal computer and are comfortable with computers. The engagement will be about 3 weeks and will be conducted in a Work From Home format.

Please send an expression of interest to volunteer@virtualcc.org.au
